

SB1730

99TH GENERAL ASSEMBLY

State of Illinois

2015 and 2016

SB1730

Introduced 2/20/2015, by Sen. Dave Syverson

SYNOPSIS AS INTRODUCED:

New Act

Creates the Resource Optimization Act. Contains a short title provision and a findings Section.

LRB099 10201 KTG 30426 b

A BILL FOR

1 AN ACT concerning State government.

2 **Be it enacted by the People of the State of Illinois,**
3 **represented in the General Assembly:**

4 Section 1. Short title. This Act may be cited as the
5 Resource Optimization Act.

6 Section 5. Findings. The General Assembly finds that when
7 expenditures outpace revenue it is essential that
8 administrative processes and procedures be rethought,
9 reassessed, and reinvented to permit optimal resource
10 utilization. Emphasis should be placed on retrofitting
11 administrative functions so more can be accomplished with fewer
12 resources.

13 The cost benefit of administrative functions must not be
14 taken for granted simply because this is how business has been
15 conducted in the past. Appropriate waivers should be sought
16 when federal oversight mandates outlive their purpose. When
17 possible, State oversight should be aligned with federal
18 oversight to eliminate the need for the State to pay for
19 oversight the federal government already performs.

20 Public-private partnerships should be encouraged,
21 explored, and embraced. Federal initiatives should be
22 identified and pursued. Federal funding on all fronts should be
23 sought.
